SUGAR THE FEATURE

Speculators More Confident in Wall Street Yesterday.

Strong Tone to the Dealings and Advances Scored-Indianpolis Grain in Better Demand.

At New York, yesterday, money on call was easy at 1 per cent., the last loan being at 1, closing at 1 per cent.

Prime mercantile paper, 41/2051/2 per cent. Sterling exchange quiet with actual business in bankers' bills a \$4.86%, @4.87 for demand and \$4.84%@4.85 for sixty days; posted rates, \$4.86@4.88; commercials, \$4.83%@4.84. Silver certificates, 67%c. Bar silver closed

a 67%c per ounce; at London, 31d. Total sales of stocks were 172,100 shares, including 71,000 of American Sugar. The share speculation yesterday, as on Tuesday, was fairly active and was attended by no excitement even in the Sugar pool. The main tendency of prices was upward, and although there were reactions, they were followed by recoveries, and at no time was the pressure to sell very heavy, a strong tone characterizing the dealings in the grangers. St. Paul was in good demand early in the day, on rumors that the earnings for the third week in January would show a smaller percentage of decrease than for any week since the break began and especially when the figures were published giving the decrease \$116.587, or 18% per cent. against an average decrease of 22 per cent. in December and 271/2 for the first week of January. There was a pretty general covering of shorts in these stocks and also buying for the long account which, especially in the later dealings, caused an appreciation in values. London was a buyer of St. Paul and also took small lots of Atchison, Louisville & Nashville and Union Pacific. Although most active of the list the transactions in Sugar were less than half the amount of yesterday's sales. General ruin of American Sugar interests was the burden of the talk on the exchange as the natural consequence of free sugar, but all the same, there was a vigorous covering of shorts, and at each reaction buying orders appeared in sufficient numbers to keep the shares from slumping off and th final figures actually showed a gain per cent. The preferred stock closed at 81, as on yesterday, having fluctuated between 81% 9814c. Reports of probable trouble at the Schenectady works of the General Electric Company by reason of the alleged failure of the company to live up to its agreement with the men induced sales of the shares, causing a decline of % per cent. at the first board, Boston being the heaviest seller. When the selling movement subsided the stock recovered on very small purchases, closing at the highest of the day, 1% per cent. above the bottom figures. Western Union declined % per cent. in the early trading, but quickly rallied,

Lake Shore and Evansville & Terre Haute are each up 1 per cent. Rensselaer & Saratoga sold at 175, against 160, the pre-The rallway and miscellaneous bond market was somewhat irregular in the early dealings, but during the afternoon became firm and closed strong. The principal changes are: Advances-Northern Pacific seconds, 4; St. Paul & Duluth firsts, 31/2;

selling up 1% per cent., of which % was lost

in the final sales. The buying in this stock

was good and was assisted by reports that

the prevailing mild weather resulted in re-

duced operating expenses. Outside of the

shares named the dealings were very light

and the speculation unimportant, except for

a decline of 4 per cent. in Rubber pre-

ferred and 2 per cent. in the common. The

principal activity was in the afternoon, dur-

ing the greater portion of which the market

advanced, the final dealings and the closing

being strong in tone and most of the list

showing an advance on the last sales of

Tuesday, the range being 1/4 to 11/4 per cent.

LOCAL GRAIN AND PRODUCE. Trade on the Wholesale Streets a Lit-

tle Slow with No Changes in Values. Yesterday was rather quiet on the wholesale streets and in values there were no flutcuations calling for special mention. There is a much better demand for provisions than last month and prices rule firm on most descriptions of hog products. Eggs are firmer and an advance may be looked for unless the weather moderates. Poultry is easy and butter tending to higher prices. On Commission row it was rather quiet yesterday. The supply of fruits, apples excepted, and of vegetables is in excess of the demand. One commission merchant was asked by Boston parties if he could get \$25 per ton for cabbage on this market. If he could they wanted to ship several carloads. He replied that good Michigan cabbage was selling at \$22 per ton and lower prices were never known on this market. Potatoes, both Irish and sweet, are in good supply with demand light. Receipts of oranges are falling off and higher prices indicated. The cold snap gave more life to the local grain market. Wheat advanced ic and

several grades of corn were ½c higher. Oats are steady and hay weak. Track bids on the cereals yesterday ruled as follows: Wheat—No. 2, 57½c; No. 3 red, 54c; rejected, 40½50c; wagon, 57c.

from all the soldiers' homes last week, and many interesting items are found among the figures. During the quarter ending Dec. 31, 1893, 19,539 old soldiers were housed in the seven national homes. The central branch at Dayton accommodated 5,290, while the Pacific branch at Santa Monica only 1,292. The Marion home held 1,423 during this period. The death rate in the various homes varies quite a good deal. The Marion home has by far the smallest mortality. According to the last quarterly report one in every 52 1-3 members died; in Milwaukee, 1 to 72 2-3; Togues, Me., 1 to 691-3; Hampton, Virginia, 1 to 109 2-3; Leavenworth, 1 to 611/2; Santa Moni-ca, 1 to 87 3-5; Marion branch, 1 to 142 3-10. The general average for all the homes during the past quarter is 1 to 70 4-5. During the same quarter 9,960 visitors called at the Marion branch, as shown by the report, while 157,554 visitors were received at all the branches There are over five hundred applications now pending for admission to this branch of the soldiers' home, and all these have been made notwithstanding an order some time ago that the capacity of this branch was filled. Over seven hundred applications are pending at the Pacific branch at Santa Monica. It is easily to be seen how many more old veterans it would be able

to accommodate if there was room.

MADE A GAIN OF 1-4C

Encouragement for Wheat in Bradstreet's Visible Report.

Chicago Market Was Steady, Within : Narrow Range, and Closed Firm-Corn Showed Strength.

CHICAGO Jan. 24.-Wheat was comparatively steady during the greater part of the session and firm toward the close. The hopes of the bulls which yesterday were completely buried under a blanket of snow, rose again when, at noon, Bradstreet's visible showed that the country elevator stocks outside of those included in the official visible supply had been drawn on last week to the extent of 371,000 bushels. The close was 4c above last night's figures. Corn shook off a long depression and rose %c, retaining all but %c of that at the close. Oats were also firm, and gained 1/2c for May. Provisions were dull and easier. The wheat market was narrow. There was not an important piece of news up to midday. There was a very flat condition of trade as far as outside orders were concerned. Scarcely a messenger approached the pit with dispatches. The volume of trade was the lightest in weeks. The trade, had counted on some activity and strength following the cold wave. but the cold was preceded by such general snow fall that all talk of damage was at an end. The movement was no way different from previous days. The Norhwestern points had liberal receipts, in view of the snow storm. After the depression caused by light export clearances, there was some recovery on account of the bullish report of Bradstreet on available stocks being a decrease of 767,000 bushels on both coasts. The May price started at 63%c, touched 633/20637/sc, went to 64c, weakened to 635/sc, and again firmed to the best price of the day at the close, 64@64%c. There was good strength in corn. While wheat was showing no sign of a bull mar-

ket, corn moved 1/2c easily on its merits. May opened a fraction up at 384c and. went to 38%c, reacted a little and again held strong at 38%c. The receipts were very gnt—estimated at 160 cars. At the same time the shipments held up well for midwinter. But more than all this was the export movement. Baltimore cleared nearly 300,000 bushels alone. The Atlantic ports and New Orleans cleared very close to all round 500,000. About the only bear item was the increase of 2,646,000 bushels in available stocks. This was expected. Before the close there was renewed buying and the May price went to 38%c. There was liberal trade in oats and firmer feeling, due to sympathy with corn

and owing to the small receipts. There was good covering by shorts and also realizing by parties who bought on the recent break, but the offenings were readily absorbed and prices advanced 1/2c for May and closed about the top. In pork duliness and weakness were the features. Packers were the principal traders. Opening sales exhibited a decline

of 5c from yesterday's closing prices, followed by a drop of 21/2c. A reaction of 71/2c followed on a little buying, but it would not hold, the market easing off 5c or the lack of support. A few orders were filled later which advanced the market to \$13.321/2 for May. Lard opened 5c lower and fluctuated within a range of .021/2c, closing weak at 7.571/2c. May ribs were dull and lower with a range of .05c, closing firm at 6.671/2c. Estimates for to-morrow are: Wheat, 70 cars; corn, 90 cars; oats, 50 cars; hogs, 32,000. TRADE IN GENERAL. Quotations at St. Louis, Philadelphia.

Baltimore and Other Points.

MINNEAPOLIS, Jan. 24.-The movement

grain was smaller on account of the cold weather and a general disinclination of holders to move it. Receipts here altogether were 100 cars of wheat, with 12 cars shipped. Reports from the interior show that farmers were marketing even less than is coming here. The demand was good from the millers for the wheat that was here, and a few cars were wanted for millers to go outside, but other shippers took very little. The premium for track wheat was continued, with a difference of about 1/2c in favor of track wheat, as against the market price. Mills are running at about the same capacity as last week. The total production during last week was 103,575 barrels and the exports 16,281 barrels, showing a little larger production and some 2,000 barrels more exported than last week It seems to be generally believed that the turning point in the flour market has come. and that while it will be slow to get the improvement desired, it is thought it will be continuous until business picks up much more active than it is now. A good deal of flour was put east of the lakes before navigation closed, and Western trains ran at full capacity, there having been a cut rate on the railroads hauling flour to the East. The flour taken everywhere at this low rate is now in competition and selling at very low prices, so low that it is difficult to move fresh-made flour by rail at the present rail rate without the millers suffering a loss. A fair demand exfsts for flour in the West and South. The present production is going in that way, and as the mills now are making only about 17,000 barrels a day they find it possible to sell some in that direction without material loss. Mills are closed through all parts of the country, and the consumption of flour continues, the latter being much more than the production. It follows that there will soon be a larger demand as the stocks become exhausted. Similar conditions exist in western Europe, and although another month of possible dullness is probable, it is believed that there will be steady, though slow improvements from this time forward. May wheat opened at 60%c, sold up %6%c, holding there fairly steady during the day. July opened at 61%c and was steady all day, selling up 14@36c, as May. Dry Goods.

NEW YORK, Jan. 24.-The dry goods district has been in a fog to-day to add to the inherent condition of gloom reported in most departments of the market. A fair amount of mail orders have come to hand and while they continue to call for moderate lots, representing the actual necessities of interior buyers, the volume is moderately full when added to the local demand giving business some appearance of vitality, but we have still to report a disinclination to provide for the future. The cotton goods market is steady, but quiet at former prices. Print cloths continue dull on the basis of 23/602 13-16c Prints, and printed fabrics rule quiet except the styles exactly suited for spring and summer demand Ginghams and wash goods barely hold their own. Dress goods are quiet with irregularities in everything except the most seasonable weights and styles. Foreign dry goods quiet and unchanged, barely steady. The jobbing trade is holding recent improvements and has a more cheerful outlook than any other department of the dry goods market.

BOSTON, Jan. 24.-The leading feature of the week has been the sale of over 1,500 bags of scoured territory wool costing from 28@35c, principally in the vicinity of 32@33c. These wools were, for the most part, Texas, Colorado and Utah, short staple and unsuited for the cassimere trade. There have also been 160 bags of scoured low medium Colorado sold on a basis of about 25c laid down. With these exceptions the market has ruled very dull and uninteresting, with values largely nominal, particularly on fleece wools. NOTICE TO NONRESIDENTS-The State of Indiana, Franklin county. In the Frank-Court, Fe Eliza A. Cushman vs. Melandez W. Cushman, an absentee. Complaint No. 5289. Now comes the plaintiff, Eliza A. Cushman, and files her complaint herein, verified by her affidavit, reciting therein among other things, that said defendant, Melandez W. Cushman, has absented himself from his usual place of residence and gone to parts unknown for more than five years last past; that certain property has descended to him as an heir, and which is located in Franklin county, in the State of Indiana, and that the use and proceeds of said estate owned by him is necessary for the support of his family, and that this action is for the appointment of an administrator for said estate.

Notice is therefore given said defendant, last named, that unless he be and appear on the 21st day of the next term of the Franklin Circuit Court, to be holden on the first Monday of February, A. D. 1894, at the courthouse in Brookville, in said county and State, and answer or demur to said complaint, the same will be heard and determined in his absence. Witness my name and the seal of said court, affixed at Brookville, this 12th day of January, A. D. 1894. JAMES B. KIDNEY, Clerk. C. C. Binkley, Attorney.
